

Bunch of Bubbles

Good Clean Fun for Everyone!

Benefits of having Bunch of Bubbles at your next event:

Our outdoor bubble programs are a joyful, hands-on experience that brings learning and movement together through the magic of bubbles. Participants get to experiment with a variety of bubble wands while they run, chase, pop, and play!

- Encourages movement and whole-body play
- Builds hand-eye coordination in a natural, playful way
- Helps kids explore cause and effect through hands-on experimentation
- Offers rich sensory experiences that support focus and engagement
- Fosters cooperation, turn-taking, and positive social interaction
- Welcomes children of all abilities, with flexible ways to participate

Our outdoor bubble program is designed to be inclusive, flexible, and accessible for everyone, from pre-K through high school and across a wide range of abilities. Activities are self-paced and allow people to engage at a level appropriate to their comfort, ability, and interest.

Benefits of Bubble Programs for Libraries:

- **High attendance, broad appeal**- consistently draws families and mixed-age audiences
- **Inclusive and low-barrier** – no reading level, language, or prior experience required
- **Fully facilitated** – all materials, setup, and cleanup included; needs minimal staff time
- **Flexible and scalable** – works for small branches or large events
- **Low-risk activity** – calm, non-competitive, and easy to manage.
- **Grant- and sponsor friendly** – easy to justify, document, and fund
- **Marketing Support Included**- ready-to-use social posts, and calendar write-ups provided

Bring Big Wonder to Your Library!

Bunch of Bubbles offers engaging programs designed especially for libraries and community spaces. Our programs are inclusive, and adaptable, making them a great fit for summer reading, special events, and family programming. We handle setup, facilitation, and cleanup.

To make promotion easy, we also provide ready-to-use marketing graphics and promotional materials.

Big Bubble Adventure

Outdoor Bubble Play on a Grand Scale- our true specialty

Our Big Bubble Adventure transforms outdoor spaces into a bubble wonderland. Participants explore giant bubbles using professional tools, learning through movement, experimentation, and cooperative play.

Great for: Outdoor library events, summer reading kick-offs, and drop-in programs. Perfect for all ages and abilities.

- Fully facilitated
- Scales easily for large groups
- Joyful, inclusive, and unforgettable

Buried Stories and Big Discoveries

40 minute Indoor Bubble Show

Stories, Science, and Bubbles—This archaeology themed interactive indoor bubble show blends storytelling, visual spectacle, audience participation, and a short dino dance party at the end. Designed with libraries in mind, the program connects bubbles to imagination, curiosity, and narrative—making it a natural fit for reading-themed events.

Great for: Indoor spaces, and mixed-age audiences

- No mess, no special setup
- Engaging visuals
- Encourages curiosity, wonder, and storytelling
- No stage, lighting, or special sound equipment required

What we bring to the party!

One of our favorite things about bubbles is their accessibility, and flexibility. We've spent countless hours designing, testing, and building our bubble makers to ensure that every single person regardless of their age, or ability can make bubbles in almost any weather! Our gear is all hand-made by us with designs we've developed and tested over years of supplying bubbles at various events. Kids, and grown-ups alike are amazed by the incredible bubbles they're able to make! It makes fantastic memories, and gives everyone a joyful confidence boost! Our hand-made bubble makers create a memorable experience that they can't get anywhere else!

To accommodate different ages, abilities, and weather conditions we bring at least 5 different styles of bubble makers for kids to use at our events . We also bring our professional bubble making tools to put on short shows that amaze, and delight! We make thousands of bubbles for kids to chase, and pop!

We've designed our entire operation from top to bottom to ensure that **EVERYONE** can have a great time!

Big Dippers make basketball-sized bubbles on calm or breezy days. Great for all ages!

Tri-string wands- great for teens, and older kids. They make HUMONGOUS bubbles in calm winds.

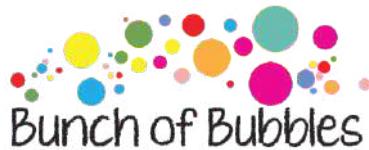

Little Dippers make smaller bubbles, and long tubes. Great for toddlers, and for doing bubble tricks!

Shooting Stars make clusters of bubbles in stronger winds, and are great for all ages!

Fossil Bones & Dino Prints- produce fun bubble shapes and are perfect for this year's summer reading programs!

Entertaining Setup

We place bubble stations approximately 6 feet apart. We can accommodate groups of almost any size.

Site needs:

A safe place for kids to play. It can be any surface other than gravel or dirt. A grassy field, basketball or tennis court, or unused parking area are all fantastic. We can work in smaller spaces, but room to run is much more fun! We use 36-inch kiddie pools to protect your surfaces, and to help minimize messes.

Access to tap water if possible. We mix bubble solution on-site so we can keep the fun going! We use a 20-gallon tub that we transport with a rolling cart, or 5-gallon buckets, and do carry a food-grade hose with us.

Things to know:

We can't control where bubbles fly. On a windy day we can launch hundreds of bubbles at one time that can fly 50 yards or more. On calmer days we can make bubbles as big as 30-40 feet long.

We're not kidding when we say "Bunch of Bubbles"- we can go through over 100 gallons of bubble solution at some events. It's an insane amount of bubbles.

We make every attempt to leave every space as good as we found it. We thoroughly wipe up any spills, and rinse any paved surfaces if necessary.

We like to be good neighbors to other event participants. Please don't put us near any activity that could be damaged by flying bubbles or near food.

The bubble solution is our own recipe that uses Dawn dish soap, guar gum, and a special cosmetic-grade polymer. It's about 95% water, and safe for kids and pets.

The safety of the kids is very important. We stop all activities if conditions become unsafe- thunder storms, heavy rain or high winds for example.

Bunch of Bubbles is fully insured, and we can add specific riders for your event if necessary.

Library Slime Programs

Two Options. Same Easy Experience.

We offer two slime programs designed specifically for library settings. Both are low-mess, fully facilitated, and library-safe — the difference is the theme and how closely they tie into summer reading programs.

Our exclusive Jiggly Slime formula is 100% natural, glue-free and won't stain or stick to fabrics. It's water-based, and easy to clean! Jiggly Slime is tinted with 100% natural mica powder for a great geology tie-in. It won't harm carpet or upholstery!

Slime making supports hands-on learning as kids mix, experiment, and see cause-and-effect in real time. Participants build problem-solving skills, fine motor control, and confidence through playful exploration. Because the activity is tactile and visual, it works well for a wide range of ages and learning styles. Our slime is made with library-friendly materials that won't stick or damage surfaces, making it a safe, low-mess option for indoor programs. Best for ages 8 and up.

Slime Time w/ Jiggly Slime

Slime Time is our general, non-themed slime program, perfect for libraries that want hands-on fun without a specific storyline or seasonal tie-in. Kids mix and explore slime through guided play in a calm, structured format that works well indoors

Best For- General children's programming, after-school or school-break events, or libraries wanting a flexible, theme-neutral option

Jurassic Jiggle Slime

Dinosaur-Themed Slime for Summer Reading

Jurassic Jiggle Slime is our themed slime program, built to support Summer Reading initiatives like "Unearth a Story." Kids dig into slime through a dinosaur and discovery lens, making it a natural fit for fossil, archaeology, and prehistoric themes.

Best for- Summer reading programs, theme weeks, libraries highlighting "Unearth a Story"

Program format- both programs:

Participants tint, scent, and decorate their own container of slime.

30-45 minute program

Groups of 25 or fewer. Ideal for registered programs or controlled drop-ins.

Fully facilitated from start to finish, and all materials, setup, and cleanup are included. We also include marketing support with social media graphics, and calendar write-ups

\$400 for the first session- \$100 per additional session in the same day for locations within 30 minutes of Ovid, NY or Trumansburg, NY. We're happy to travel further but additional fees will apply.

Additional information:

Bunch of Bubbles reserves the right to discontinue services if conditions become unsafe.

For example:

- Thunder and lightning, excessive wind, temperatures over 90 degrees or below 50 degrees, or other inclement weather. We actually like a little rain- it makes better bubbles. We can make bubbles outside at any temperature over 35 degrees. If it's under 50 degrees we will need breaks to warm up a little between groups. We tend to keep an eye on the weather before an event, and can pivot to indoor bubbles if the weather isn't cooperating.
- Children are acting in ways that could cause injury to themselves, or others, or damage to our equipment. We keep an eye on the kids, but do ask for help in managing any challenging behaviors
- Darkness if there isn't suitable lighting, or poor visibility. We start packing up about an hour before sundown if there isn't enough light for people to move around safely. Night bubbles are beautiful, and a lot of fun if you do have an evening event, and can provide a decently-lit space.

Safety is our top priority, and we appreciate your help with maintaining a safe environment. We are very invested in making your event a success, and will make every effort to work our contracted hours. We want everyone to have a fun, safe time!

- We will arrive to setup approximately 60 minutes before your event begins. Cleanup generally takes 30 minutes. We're fully self-sufficient and don't need anything beyond water once we arrive.
- Bubbles themselves are 95% water, and thinner than wavelengths of light. We can, and will make bunches of bubbles in just about any kind of weather, but the actual size of them will depend on the weather, and the amount of wind on the day of your event. On windy days we create tons of small bubbles, and on calmer days we make GIANT bubbles. We judge the atmospheric conditions, and make the best bubbles that we can make at every event.

What happens if it rains?

We can either reschedule for a rain date, or we can pivot to indoor bubbles.

In the days leading up to your event we'll be checking the weather, and reaching out to you to develop an alternate plan if the weather looks iffy.

Pricing

Standard package 1 Hour Outdoor bubbles:

- 8-10 Stations supporting approximately 50 kids making bubbles
- 1 staff member
- A huge variety of bubble making tools for toddlers through adults
- Approximately 20 gallons of bubble solution, or more as needed.
- Marketing support with ready-made graphics, and calendar write-ups

Choose from dinosaur theme for "Unearth a Story", or our standard bubble wands. We also have "Very Hungry Caterpillar" themed wands that are adorable for toddler story time activities.
